

# Optimize your North American B2C Supply Chain

HOW OUR CROSS-BORDER CONSOLIDATION AND ZONE SKIPPING SOLUTION WORKS

## INTERNATIONAL INBOUND

Farrow receives International inbound Shipments (duty deferred) at its Canadian bonded facilities.

## FARROW LOGISTICS RECEIVES CUSTOMER ORDER

Consumer order data transmitted to Farrow.

## FARROW LOGISTICS FULFILLS CUSTOMER ORDER

That order is fulfilled and processed for shipping from our Central and Western fulfillment centers.

## PARCEL SORTATION

Parcels are sorted to a carrier hub local to the packages last mile of delivery.

## GOODS CLEARED

Orders are cleared with U.S. Customs under Section 321, thereby avoiding duty on Consumer shipments under \$800 USD.

## GOODS INDUCTED INTO LOCAL CARRIER NETWORK

Farrow Logistics inducts your parcels into the most favored U.S. delivery network.

## GOODS DELIVERED TO CUSTOMERS HOME / BUSINESSES

Your customer receives their order.

## WHAT IF A RETURN IS MADE?

As with shipping return orders are consolidated for cross-border shipping. This simplifies the tax and duty adjustments. All returns are checked, a notice is issued and they are shipped back to your facility.
